

# BAZAAR JUNIOR Magazine – Kaba Kaba Estate

June Edition – 2017

**T**here are private Balinese villas, and then there are luxurious estates on the Indonesian island that redefine the idea of pampering relaxation. Kaba Kaba Estate falls into the latter category, and is not so much a six-star, cooler-than-thou resort where you actually have to put together an outfit to step out for dinner, but more like the perfectly-appointed home of a discerning best friend. This astounding eight-bedroom estate extends over 130,000sqft, and is staffed by a friendly and incredibly professional team—

the chef will happily share a recipe for crispy tempoh, and everyone seems to find joy in entertaining even the youngest of guests. There's little motivation to leave the splendour of the villa's rice terrace setting, with its private multi-pavilion design, antiques-filled interiors, fascinating art collection and no-expense-spared facilities—including four pools, a tennis court, home theatre, games room, children's library, spa and gym. The only time you won't be in a state of complete bliss is when it's time to leave. [www.kabakabastate.com](http://www.kabakabastate.com)
